Cable Management

Our highly skilled cable management team offer a range of products from single terminated cables to complex pre-wired assemblies. Experience gained from supplying customers across diverse market sectors endears us to both small and large companies wishing to benefit from our cable management expertise.

At Coulstock and Place we offer a completely flexible service utilising both automated and manual production processing, allowing us to react quickly and accommodate both small one off batches and high volume scheduled orders.

By working in partnership with all our customers we can also offer specialist cable printing and cable processing for bespoke applications based on our knowledge of customer's business requirements.

With an enviable level of expertise from design through to implementation, Coulstock and Place offer the complete cable management service.

About Coulstock & Place

For over 30 years, Coulstock and place has been a leading provider of cable management, motors and specialist machining solutions. The company has gained a wealth of experience by consistently providing quality products and services to a wide range of market sectors. Our commitment and high standard of customer service is paramount throughout each of our business areas.

Coulstock and Place is based in Doncaster, South Yorkshire and provides products and services throughout the UK, from small regional accounts to global market leaders. Flexibility is the foundation to our business and we are able to cater for small one off orders to complex high volume business.

When you work with Coulstock and Place you benefit from a local friendly service with the reassurance and confidence that we're part of a larger multinational group. We are a wholly owned subsidiary of J & E Hall International and a member of the Daikin group.

Specialist Machining Solutions

Our specialist engineering division offers an extensive range of bespoke engineering solutions.

Repair and Refurbishment

A comprehensive service is provided to all our customers including repair, refurbishment or remanufacture of components for the water, pet foods, coal, manufacturing, food, chemical and pharmaceutical industries.

Design and Manufacture

Our workshop is geared to small batch production and out experienced engineers can design and manufacture to specific customer specifications.

Metal Spraying

Metal spraying gives a high quality finish and has a range of advantages including long life protection against corrosion.

Motors

At Coulstock and Place we offer a complete range of motor services from new motors to rewinds and onsite capabilities.

We fully understand that our customers sometimes require motor repairs on site. That's why our dedicated on site team have the capabilities to provide drive motor bearing changes in-situ.

We are also able to offer a range of new gearboxes and pump as well as a comprehensive gearbox and pump repair service.
