
New Motors & Engineering Solutions

YOUR TRUSTED PARTNER FOR COMPLETE, RESPONSIVE ENGINEERING SUPPORT.

Coulstock & Place
ENGINEERING CO. LTD
a member of J & E Hall Limited

General Overview

Coulstock & Place provides dependable engineering solutions that keep industry moving. With decades of experience, extensive product stock and advanced in-house capabilities, we support customers with new electric motors and gearboxes, specialist repairs and rewinds, precision machining and bespoke fabrication.

One trusted engineering partner from supply and repair to precision manufacture.

NEW MOTORS & GEARBOXES

Coulstock & Place supplies an extensive range of new electric motors and gearboxes to meet the needs of various industrial applications.

With decades of experience and a commitment to customer satisfaction, Coulstock & Place is a trusted partner for businesses across the UK.

Electric Motors

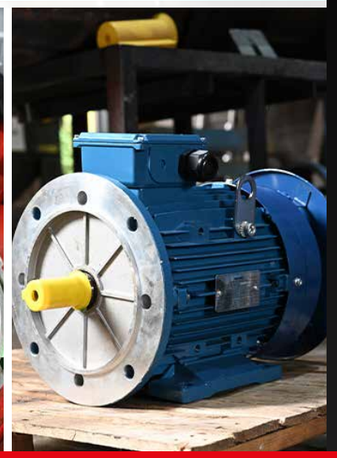
- Electric motors from 0.18kW to 37kW (2 pole and 4 pole configurations)
- IE3 and IE4 energy efficient motors from 0.18kW to 315kW (foot & flange mounted options)
- Single-phase motors up to 3kW
- 6-pole motors available on request
- Brake motors selection available
- Motor control systems
- Variable speed drives
- ATEX motors for hazardous environments

Gearboxes

A comprehensive selection of industrial gearboxes is available on request from established manufacturers such as:

- SEW-Eurodrive
- Yilmaz
- Motovario
- NORD
- Brown Group
- Varvel
- Universal

Our range includes motors from leading manufacturers such as; **AMTEC, BROOK, WEG, ABB, BALDOR, TEC, UNIVERSAL, YILMAZ, MOTORVARIO, BONFIGIOLI, CEMP and SEW**



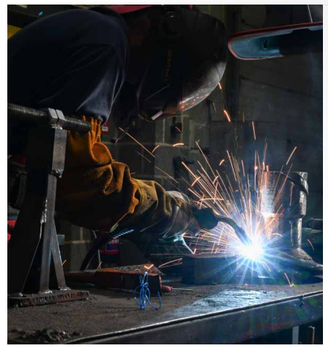
REPAIR & REWIND MOTORS, PUMPS & GEARBOXES

Our experienced, fully trained team provides comprehensive electrical and mechanical repair, rewind and refurbishment services for motors, pumps, gearboxes and associated equipment.

All core repairs are completed in-house, ensuring consistent quality, accurate fault diagnosis and fast turnaround.

Our Services Include:

- AC, DC and slip ring motor repairs and rewinds up to 500kW
- ATEX compliant flameproof motor repairs
- Pump, fan and gearbox repairs
- Transformer rewinds and conversions
- Clutch coil, solenoid and brake coil repairs
- Voltage, speed and frequency motor conversions
- Dynamic balancing
- **Advanced testing & diagnostics:**
  - Four wire resistance testing
  - 6kV Baker testing
  - Core loss analysis for stators and rotors
- **On-site engineering support**



MACHINING & FABRICATION

Our Specialist Engineering Division provides precision machining, fabrication, repair and manufacturing services for customers across the water, pet food, industrial manufacturing, food processing, chemical and pharmaceutical sectors.

From an urgent replacement component to a newly designed prototype, our skilled engineers deliver practical, cost effective solutions tailored to your exact requirements.

Design & Manufacture

For one-off components, prototypes and small production batches, we provide a responsive design and manufacturing service based on your drawings, samples or specifications.

In-House Engineering Capabilities

- Turning
- Drilling
- Milling
- Grinding
- Slottng
- Welding/Fabrication (MIG & TIG)
- Metal spraying

Repair & Refurbishment

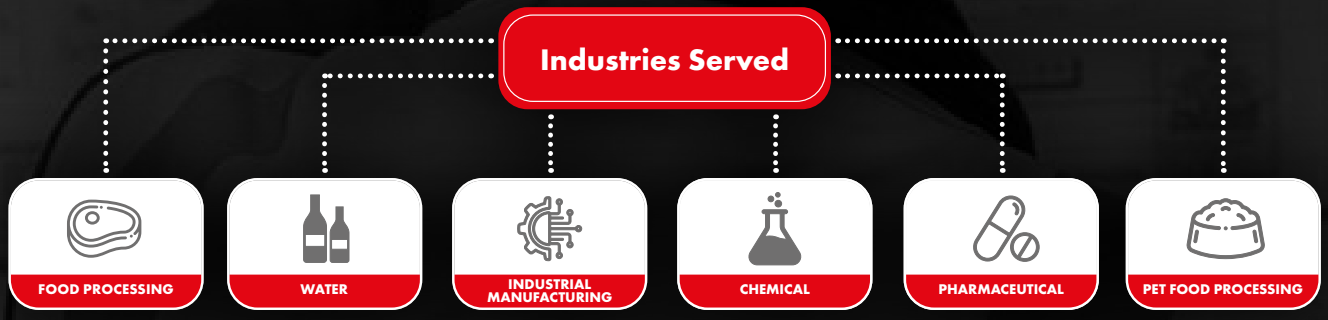
We provide expert repair, refurbishment, and remanufacture of precision components, helping extend the life of vital machinery and minimise costly downtime.

Through our network of trusted specialist partners, we can also arrange:

- Laser & water jet cutting
- CNC turning and milling
- Heat treatment
- Vertical and horizontal boring

WHY CHOOSE COULSTOCK & PLACE?

- Comprehensive stock availability
- Fast and reliable delivery
- 24-hour service for urgent needs
- Technical expertise
- Dedicated customer service team
- Free inspection and quotation
- Free collection and delivery (within a 40 mile radius)



Your trusted partner for complete, responsive engineering support.
